North Shore Technical High School

2001

two thousand one

To the Class of 2001:

Saying goodbye is always difficult. Saying goodbye to you is especially difficult. You were my first class as Principal of North Shore Tech. I remember each and every one of you that first day of school four years ago. You didn't know it then, but I was even more nervous than you were. I think now, because of this, I feel a special bond with you. You are all my "honeys."

You are leaving me now – but you leave more talented, more educated and more loved. Go take your place in the world – Be productive - Be pro-active - Care about your community and make me proud.

Love,

  
Mrs. O'Malley

To the Class of 2001:

I want to take this opportunity to congratulate the Class of 2001. Your hard work and perseverance these past four years at North Shore Technical High School have earned you the distinction of being a graduate.

The next step after high school, regardless whether that leads to the work of world or onto further education, will require the same commitment and dedication that got you to this point. However, you now have the advantage of being a graduate of a high school that has provided you with the skills needed to take this next step. Be assured that the education you have received will serve you well.

I wish you the best of luck in your future.

Sincerely,

A handwritten signature in dark ink, appearing to be "A. Bernstein", written in a cursive style.

So much has happened, we're long overdue  
To go Back and take a very good look  
and flip through the pages of our old yearbooks

On that first big day of Freshman orientation  
We found all our homerooms, with no apprehension  
Feeling nervous, and so out of place  
We met our new classmates, at last face to face

As underclassmen we were restricted as to  
The places we went and the things we could do  
But as we got older we found something new  
We discovered ourselves and adopted fresh views

Our senior year began with college applications  
Our favorite days of gym and school evaluations  
As a class we have a unique senior style  
Playing sports, joining clubs, and studying all the while

As mentors we helped the freshman adjust  
To a new lifestyle and gave them someone to trust  
Now leaving them behind, we hope to stay in touch  
Throughout a lifetime that will change so much

The time has come to go our own ways  
As life stretches out before us like a maze  
the future is out there, beyond our small scope  
While the years to come shine brightly with hope

Congratulations to the class of 2001

I've had so many great memories at this school. The classes, shop, and friends have made my high school experience a memorable one. Building the house in Gloucester and the laughs we have had in classes made school so much more fun and exciting. When I first came, I didn't know many people but that all changed. Holli & Matt never forget the good times we had. I know that years later I'm going to look back and wish I could come back and experience these things again. I would like to thank all my family, friends & teachers for their support and encouragement.

I will have a lot of memories here at North Shore. This is the time in my life, when I am preparing to deal with the real world. It's a time in my life when I have the most fun and have the best time of my life before I have to take on newer and far more demanding responsibilities. After having been here since '97, I've enjoyed my time here and have learned a lot. People that I have met here have come and gone in such a short time that it's amazing how fast time flies by and you don't even realize it. Then it comes the BIG day- Graduation!
